

TSA

SPECIFICATIONS

Material
carbon steel

Capacity
80/100t

Division
20kg

Load Cell
M9M

Load Cell Protection
IP68

Accuracy
C3

Save Load
150% F.S.

Warranty
5 years

FEATURES

- Heavy duty U beam structure with 10mm checked plated
* TSA4011 with 12mm checked plate
- Large capacity up to 100 ton
- OIML IP68 Alloy steel double-ended beam load cell
(Optional OIML IP68 stainless steel canister load cell)
(Optional digital load cells)
- Design with free combination modules
(5535mm / 3695mm platform, 350mm wide load bar)
(Perfect for container shipping)
- Optional 3m or 3.4m width
- Optional railings and ramps
- Epoxy painting for long-term use
