Value Each Gram

Explanation about manual

Name: using manual for PCT model

This manual has been prepared for various models with same body that have built at Our Company. So, some content of this manual may not use on your device.

Our Company keeps the right to do any changes in any time as a permanent policy in improving and upgrading of the products

[OPERATING INSTRUCTIONS OF PCT]

Included accessories

You have purchased a product that it includes the following components:

 <p>A metal plate</p>	 <p>A scale model of PCT</p>
 <p>A using manual</p>	 <p>AC power cable</p>
 <p>A plastic plate</p>	 <p>A guarantee card</p>

Device dimensions and technical specifications

[OPERATING INSTRUCTIONS OF PCT]

Introducing the device

- Easy using
- Weighing Specification

Option 1

Maximum
capacity:30kg

Minimum capacity:100g
Accuracy:5/10g

Option 2

Maximum
capacity:15kg

Minimum capacity:40g

Accuracy:2/5g

- Ability to use A/C power and rechargeable battery
- Register the receipt for several goods, tare, quantity sell, change, discount, calculator, set date & time, service to 3 customers at the same time, daily and periodic report of sale in PLUs and Query PLUs
- Thermal printer to print receipt and reports
- 10,000 PLUs to register name, price, barcode, 70 direct memory to quick access
- Double side display that is able to show weight in 5 digits, unit price in 6 digits and total price in 7 digits

[OPERATING INSTRUCTIONS OF PCT]

- connect to cash, barcode reader, network and u-disk

Installing guidance

Assemble the scale parts as below picture

- ✓ Usage of saved information in 10,000 PLUs:

1. Press  key
2. Enter number of intended PLU
3. Wait for 2 second

Your desired item will be shown in sale list

- ✓ To select 1 to 35 PLUs, press the desired PLU hotkey

[OPERATING INSTRUCTIONS OF PCT]

- ✓ To select 36 to 70 PLU, press  key first, then select the desired PLU hotkey, your intended goods will be shown in sale list

4.7. Save information in PLU

1. Press  key for two seconds to select number of memory

Please Input PLU number:

**

Press Register key

2. Enter number of desired memory

3. Press 

If you want to save in direct memories, press memory key instead of step 2 and 3

1. Enter information of goods in opened page

PLU No: ** 

Name: ****

Unit Price: ****

Press [OK] to save

2. Press 

4.8. Calculator

1. Press  key, the device will enter in calculator part
2. Calculate by using number keys and keys of , , , & .

4.9. Receipt

4.9.1. Register the receipt

1. Enter sale items
2. Press  key to register desired receipt

4.9.2. Void One, Void All

✓ Void One:

1. Select your desired goods of shopping list by  &  keys.

[OPERATING INSTRUCTIONS OF PCT]

2. Press  key.

- ✓ Void All:

3. Press key , a window will be opened to get a confirmation
4. Select yes or no
5. Press  key

4.9.3. Discount

1. After register the receipt, press  key, a window will be opened to enter amount of discount

[OPERATING INSTRUCTIONS OF PCT]

Discount amount:

2. Enter amount of discount

3. Press  key

4.9.4. Change

1. Press  key, a window will be opened to enter received amount from customer

Receipt: 1

Cash:

Press [change] again

2. Enter repayment

3. Press  key

4.9.5. Print

This step is final step of preparing the receipt, after confirmed and

registered of receipt, press  key.

5. Usage of Menu

5.1. Menu operation method

1. Press  key to enter the menu.
2. Press , ,  and  keys to choice the options.(The left side of the menu options can also last digit number corresponding number key shortcut to open the next level menu or execute the selected menu option)
3. Press  key to open the next level menu or execute the selected menu option.

5.2. PLUs

This device is able to register the information such as name, price& barcode of intended goods in 10,000 indirect PLUs and 70 separate direct PLUs.

5.2.1. Save the good's information in PLU

1. Press  key
2. Select "PLU" from menu

[OPERATING INSTRUCTIONS OF PCT]

3. Select “PLU setting” item from PLU part

A window will be opened to enter number of memory

Please Input PLU Number:

Press register key

4. Enter number of intended memory

5. Press  key

If you want to save in indirect memories, enter intended Hot-Key instead of step2 and 3.

6. Enter goods information in opened page

PLU No: ** 

Name: ****

Unit Price: ****

Press [OK] to save

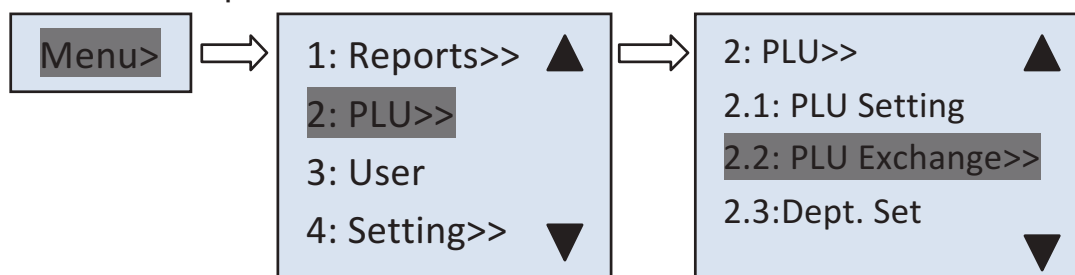

[OPERATING INSTRUCTIONS OF PCT]

7. Press  key

5.2.2. Department set

If the stores have more than one department, it is possible to organize your scale on your desired department.

1. Select “ department set “ from PLU window

A window will be opened to enter name and number of desired department

2. Enter name and number of department

Dept. No:	99	123
Name:	****	
Press [ok] to save		

3. Press  key

5.2.3. Hot-keys setting

There are 70 direct PLUs that allow to user to register 70 goods of more selling goods in these 70 PLUs.

[OPERATING INSTRUCTIONS OF PCT]

1. Select "Hot-key" from PLU window

A window will be opened to enter number of PLU

PLU No:

Press register key

2. Enter number of PLU

3. Press  key

The related information to selected PLU is ready to register in Hot-keys and a window will be opened and show information of this PLU

4. Enter number of Hot-key

Unit Price: ****
Hot-key No: **

[OPERATING INSTRUCTIONS OF PCT]

In this case, information of desired goods will be registered in Hot-keys.

5.2.4. print content of direct PLUs

If you need to aware content of Hot-keys, you can print a complete list of saved information:

1. select "Reports" item from menu

2. select "Hotkey-List"

It will print a list of all saved information in direct memories.

A window will be opened to get a confirmation

3. Select confirm or cancel

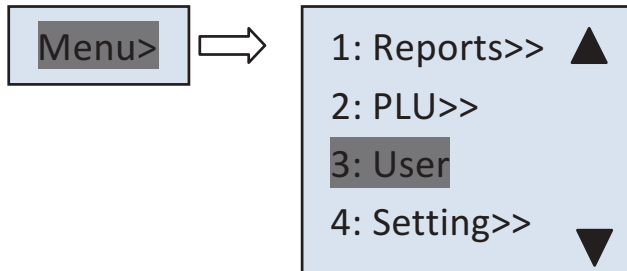

4. Press  key

[OPERATING INSTROCTIONS OF PCT]

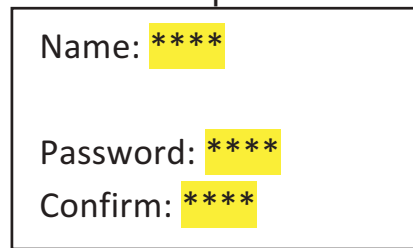

5.6. User set

To control on some parts, it is possible to define the user

1. Select "User" item of Menu

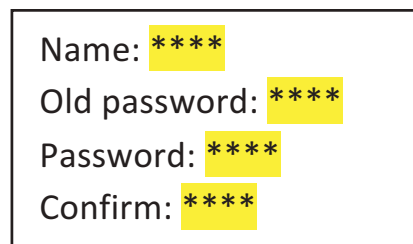

A window will be opened to enter user name, if no user has defined, a window will be opened as below picture:

The screenshot shows a form with three input fields. The first field is labeled "Name:" and contains four asterisks. The second field is labeled "Password:" and contains four asterisks. The third field is labeled "Confirm:" and contains four asterisks.

If user name has defined before, a window like below picture will be opened:

The screenshot shows a form with four input fields. The first field is labeled "Name:" and contains four asterisks. The second field is labeled "Old password:" and contains four asterisks. The third field is labeled "Password:" and contains four asterisks. The fourth field is labeled "Confirm:" and contains four asterisks.

Enter username and password

2. Press  key

[OPERATING INSTRUCTIONS OF PCT]

6. Errors and Alarms

Error No	Message	Reason
1	Input Value is Invalid	Scale No (n), n = NULL or n = 0 Printer Gray(n), n = NULL or n = 0 or n > 10
2	PLU Barcode Invalid	PLU Barcode = NULL.
3	PLU NO. Invalid	PLU No is not a integer or PLU No = 0
4	No Paper	install paper in printer
5	PLU not Found	When Editing or Selling PLU, PLU can't be found with the PLU No or Hotkey
6	IP Address Invalid	input IP Address is invalid
7	Date is Invalid	
8	Password Inconsistent	Password and Confirm password is different.
9	Wrong Password	Password is not right
10	Quantity Invalid	quantity's decimal digits > 3
11	Price Invalid	Price's decimal digits > 2
12	Memory Full	Memory for PLU data is full and input 10,000 PLU. Can't add any new PLU
13	Receipt Paid	After customer paid for the receipt, can't do discount operation again
14	PLU Data Memory Error	PLU Data Memory error. Should Erase all PLU data or Download PLU again
15	Can't Sell over 50 Items	For one receipt. Max item number is 50.If more than 50 items, should print that at second receipt
16	Department No. Invalid	Department No(n). n = 0 or n > 99
17	Barcode is Repeated	When editing standard barcode, the

[OPERATING INSTRUCTIONS OF PCT]

		barcode you input is using by another PLU
18	PLU No is repeated	When editing PLU, more than one PLU has same PLU No. It may cause by downloading PLU form PC software
19	Physical Address Invalid	Network's hardware address is invalid. For example, 00 00 00 00
20	Digit Overflow	Quantity of decimal digits(unit price and total price) more than 3
21	Result Overflow	Calculator result is overflow
22	Divisor can't be 0	Calculation such as 0/0, 1/0 is forbid
23	Over Max Weight	Current weight is more than max weight, should remove something form pan to avoid damaging the scale's load cell
24	Can't Re-Zero	put load on pan when power on system with On/Off switch
25	Nothing on the Pan	Press [accumulation] key before putting load on pan
26	Haven't Accumulated	Should add current item before use [Up] or [Down] key to query other items
27	Haven't Calibrate	Can't sell PLU before calibrating.
28	PLU not Exist	When editing standard barcode, the PLU No. you input is not existed
29	Report not found	Have not record of report you are querying
30	Quantity over Max Value	Quantity is more than 99999
31	Total Amount over Max Value	Total Amount is more than 9999999
32	Pay lower then total	For example : total =23.67 pay money=21.00
33	Discount more than	When discount amount is more than

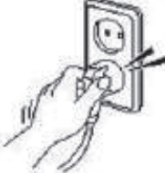

[OPERATING INSTRUCTIONS OF PCT]

	Total Amount	receipt amount.
34	Can't Change Date Back	Input date lower than today.
35	Time is Invalid	
36	U-Disk Writing Failed	Cannot save data on U-disk.
37	U-Disk Reading Failed	Cannot read data from U-disk.
38	U-Disk Space is full	Clean data of U-disk and do your operation again
39	U-Disk not found	Check connection of U-disk
40	U-Disk writing and reading failed	try again last operation of U-disk
41	U-Disk Unrecognized	
42	File not Found	Can't find file in the U-Disk

[OPERATING INSTRUCTIONS OF PCT]

Precautions

Precaution when installing the scale. To ensure that you get the most from your scale, please follow these instructions.

Attention!		
<p>Scale must be grounded to minimize electricity static. This will be minimizing electric shock.</p> 	<p>Do not overload beyond the maximum weight limit.</p> 	<p>Do not disassemble the scale. When any damage or defect occurs contact your authorized dealer immediately for proper repair.</p> 
<p>To reduce electric shock or incorrect reading, do not spill water on the scale or place in the humid condition.</p> 	<p>To prevent from fire occurring, do not place or use scale near flammable or corrosive gas.</p> 	<p>Do not pull the plug by its cord when unplugging. Damaged cord cause electric shock or fire.</p> 
<p>Use proper Adapter. Incorrect adapter could damage the scale.</p> 	<p>Insert plug firmly to wall outlet to prevent electric shock.</p> 	<p>Avoid placing scale near heater or in direct sunlight.</p> 

[OPERATING INSTRUCTIONS OF PCT]

Make sure to plug your scale into the proper outlet. For maximum Performance, plug into a power outlet 30 minutes before the usage for warm up.

Attention!		
<p>Grab on the bottom of the scale when moving. Do not hold by the platter.</p> 	<p>Avoid sudden shock to the scale. Internal mechanism could be damaged.</p> 	<p>For consistent or accurate reading maintain periodical check by your authorized dealer.</p> 
<p>By adjusting 4 comers of the scale, set the scale even using the built in scale leveling indicator.</p> 	<p>Place the scale on firm and temperature consistent environment.</p> 	<p>Take the battery out when scale is not in use for long time. Leakage from the batteries is hazardous.</p> 
<p>Keep the scale away from the other electromagnet generating devices. This may interface with accurate reading.</p> 		

* This equipment is indoor use and all the communication wirings are limited to inside of the building.
